Dear Friend:

A happy, contented home is one of the finest things in life. Happiness in the family circle helps to inspire and bring good cheer to every one.

Home joys are made more delightful with pleasant surroundings. The Furnishings of the home should be such as to make it attractive and inviting to the whole family. Indeed, home should be the favorite gathering place for young and old; where friends may come and be pleasantly entertained.

Every family likes to have cozy Furnishings. However, it often is difficult to get all these home comforts when needed. For various reasons it has not been possible to save up the amount required for the purchase.

It has been our privilege to help many home lovers get these needed Furnishings without tediously waiting till the full amount has been saved. Our popular Better Homes plan of easy payments has made it possible to immediately place the desired Furnishings in the home.

We cordially invite all reliable and prompt persons to order on this Better Homes plan. Those who have accepted our offer are enthusiastic over the easy way to save and make the small payments.

This Spring "Larkin Book of Better Homes" offers you just the opportunity long desired to obtain beautiful Furnishings. You may at once place in your various rooms all those things required to make home cozy and attractive.

We guarantee that the Furnishings will be exactly as pictured and described in this Book. We guarantee to please you or return your money.

May we hear from you soon?

Sincerely yours,

L A R K I N C O Inc.

John D. Larkin
President.

Our Guarantee Assures You Complete Satisfaction

We guarantee every article we ship to be exactly as described and that it will arrive in good condition. If, after receiving your Furnishings, you find they are not equal to our claims for them, notify us within 30 days, and we will give instructions for return of the goods, and will refund your First Payment and pay transportation charges both ways.

How to Order

The First Payment Is to Be Sent With Your Order

Our confidence in our ability to fully satisfy is shown by the liberal terms we name. We let you enjoy your Furnishings while making the payments. We require a small payment with each order, and a like payment monthly. This first payment and the monthly payments for orders of various sizes are shown below.

One Small Payment Brings the Furnishings to You

You May Soon Own All the Cozy Home Comforts You Need

THIS Better Homes plan is for you—immediately available, so you may at once place in your home all those needed Furnishings you have long desired.

Our terms are unusually liberal. Enjoy use of all the pretty Furnishings while paying for them. We simply ask that you do not order more than you can pay for, and then that you be prompt in sending your payments as agreed. Surely, nothing could be fairer.

Orders May Be Small or Large

The smallest first and monthly payments were formerly \$6. Our terms now include payments as small as \$3 monthly. Formerly, we required that you select not less than \$60 worth of Furnishings. Now you may have all the advantages this big Book offers if you order \$30 worth or more.

Anything in this Book may be had on easy, monthly payments. For economy in handling orders, we require your selection to total at least \$30. The Table of Terms below shows how very easy it is to buy any quantity of Furnishings you need.

What a Dime a Day Will Do

A saving of only a dime a day—\$3 a month—will bring you many of the beautiful, serviceable and attractive Furnishings offered in this Book. Seems too good to be true, doesn't it—to get long-wanted things for your home and pay monthly at the rate of only 10c a day. For two dimes a day—\$6 a month—a much larger selection may be made. Surely, any family can save and lay aside this small sum while making the monthly payments. See the Table of Terms below.

You may desire only a few things, or to furnish several rooms this convenient Better Homes way. Our easy terms make it possible to furnish an entire home if you wish.

On these larger orders we give up to 18 months' time. Think of it! A whole year and a half to enjoy use of the Furnishings while paying a few dollars monthly.

The way is now opened for you to furnish well your home on a delightful plan of easy payments. You may rest assured that the Furnishings are exactly as described. A comparison of our prices with others will quickly indicate to you the big saving to be made by buying our Factory-to-Family way. Payments are made in the pleasantest way imaginable.

Making Out Your Order

It is easy to open an account with us. Simply state on the Order Blank in back of this Book the goods you want. Total the entire amount of your purchase, and then refer to Table of Terms on this page, which tells you exactly how much to send with order and how much to pay monthly. Always send the First Payment with order.

A larger first payment as well as larger monthly payments may be made at any time, if desired.

You Save by Paying the Freight

Were we to pay the freight, our prices would all have to be advanced to cover that charge. This would be unfair to many customers. Some would pay too much, others not enough. The customer 50 miles distant would pay the same price as the one 500 or more miles away though the freight charges on shipment to customer farthest away would be very much greater. The only fair and just plan is for each customer to pay prices named in this Book plus freight from shipping point to customer's town.

Liberal Terms on Musical Instruments

On Symphonic Pianos (page 19) a small First Payment brings the instrument from the factory to your home. Then you have more than three years to pay—a few dollars monthly. On the Player-Pianos (turn to back cover page) the First and Monthly Payments are \$10 and \$12, spreading the payments over a period of more than three years. Meanwhile, the Symphonic is delightfully entertaining your family and friends.

On Style F Symphonola (page 38) music lovers have over two years to pay.

Special Terms on These Offers

The Sweet Home Electric Vacuum-Cleaner shown on page 72, at \$57 with all Attachments, is offered on monthly payments of \$3.

The L. C. Smith Typewriter, at \$75, and the No. 4 Underwood at \$72, and No. 5, at \$78, are each payable \$5 monthly.

More Than 500 L. C. Smith Typewriters Used Daily in the Larkin Office

THE letters we send you—and nearly 50,000 other letters each day—are written on L. C. Smith Typewriters. For years we have used these famous "Silent Smiths" exclusively in handling our mammoth correspondence.

It is natural that we should wish to offer you the make of typewriter we use—tested by years of strenuous service. The manufacturer has agreed to let us sell a limited number of typewriters, guaranteed to you in the same way our machines are guaranteed to us, but with the difference that these are rebuilt machines. So well built are they, so beautifully finished in every detail, our own experts who inspected them have themselves been deceived thinking they were brand new typewriters.

Uncle Sam uses 5,000 L. C. Smith Typewriters in transacting the business of this nation. Scores of large corporations each use from 100 to 2,000. Surely, you'll be pleased, too.

The Underwood Is a Leader Everywhere

THE original front-stroke visible writing machine—the Underwood is now an acknowledged leader throughout the civilized world. During the War, the army and navy for a time made such enormous demand upon the Underwood it practically became impossible to buy one. It is to be seen in prominent business offices in every land. Any stenographer or office man knows the reputation of the Underwood for easy operation and long use.

One movement of hand returns carriage to starting point and automatically moves paper to next line of writing. The Underwood type-bar mechanism has fewer parts than any other, permitting a quick, sharp stroke.

It is indeed our good fortune to be able to offer the Underwood in rebuilt machines. We have chosen the two most popular models. You may select either the No. 5, with 84 characters, or No. 4, with 76 characters—these machines otherwise being identical. See pictures below.

Has standard keyboard, with one shift for capitals on each side for convenience in touch typewriting. Writes 84 characters, takes paper 10½ in. wide. Writes a line 8 in. long.

Every part of the Underwood is built for speed and highest efficiency. THREE-IN-ONE Combination Range

In Handsome Gray Porcelain Enamel

This magnificent Range will be the pride of your kitchen. The family cooking may be done by gas during the hot days of summer or by coal or wood in winter when the kitchen needs heating and the gas is low. Coal and gas sections are independent of each other. Either fuel may be burned separately or both at one time when greater capacity is desired. Think of the convenience of having such a wonderful Range in your home.

The handsome porcelain enamel is guaranteed not to chip nor crack. Being electrically enameled, a clear, uniform fusion is secured which gives a beautiful luster—a better finish, and a permanence which can be obtained in no other way.

Two Complete Ovens—This Range has two large individual ovens, each complete in itself. Oven in base of stove is for baking with coal or wood. The oven at top of range is for gas. Both ovens may be used at same time if desired, giving double oven capacity. We guarantee these ovens to bake the finest bread, pastry and cakes; and for roasting meats and fowl they will satisfy the most critical. They bake easily, surely and quickly.

The Broiler Oven for broiling, roasting and toasting adds much to the convenience of this Range.

The cooking-top is highly polished, requiring no blacking. The entire range is absolutely sanitary and may be wiped off and kept just as clean as any china dish.

Burns Gas, Wood or Coal

This Range may be used for any kind of fuel—hard or soft coal, wood, natural or artificial gas. With this combination range in your kitchen it will not be necessary to start the furnace until a month or more later than if you had only a gas range.

For Artificial Gas we furnish 4 solid and 4 open covers.

For Natural Gas the Range is furnished with closed top on gas section, which prevents gas fumes rising in room and enables them to be carried off through the flue on back of Range. Four solid covers are furnished, also 4 extra open covers which may be used when desired.

Range in Black Finish

This Range is identical in design and construction with the porcelain-enameled Range, the only difference being in the finish. Select your choice of either finish.

Oven and broiler doors and splash-back in this Range are in White Enamel. Body of stove is Black Finish. Nickeled door frames, front skirt, front legs and trimmings.

A Year to Pay for This Pipeless Furnace

One Register Heats the Whole House

If you are using one or more stoves to heat your home, prepare now for next winter by installing this up-to-date, efficient Pipeless Furnace. Discard your stoves, and let your family enjoy the pleasures of a furnace-heated home. The inconvenience of carrying coal and ashes through the living-rooms, to say nothing of the lack of sufficient heat in portions of the house, is familiar to everyone who uses stoves. With this Pipeless Furnace down in the basement, out of the way, you have only one fire and one coal pile to heat the whole house. All dust and dirt connected with coal and ashes are kept from the rooms above. The floors are free from stoves. Rugs and carpets are not disturbed.

The picture of Pipeless Furnace, at left, shows very clearly how the cold air passes down through floor register into outer section of sheet iron casing and is then warmed as it rises up through inner section of casing, passing up through center of floor register into room above. The warm air rising goes at once to the ceiling and then as it cools and descends, it is drawn back to the furnace to be re-heated.

There are no pipes or flues extending to the several rooms of the house. A single floor register is placed directly above the furnace.

Easy to Install in Any House—No Need to Tear Up Floors, Walls, Etc.

This Furnace is for new or old houses. It is used extensively in old houses where it would be difficult to place wall pipes, or where much cutting would be required for more expensive hot air heating systems. With this Furnace there are no pipes to fit, no tearing up floors, no repapering, no harm done to plaster or walls. Simply cut one hole in floor for register, connect register and collar with furnace, and all is ready. Any man having some knowledge of tools, with one helper, can do the work.

No matter how long or cold the winter, you can heat your entire house thoroughly—at a uniform temperature.

Burns Any Fuel—hard or soft coal, coke or wood.

This Pipeless Furnace is very economical in consumption of fuel. It is ideal for dwellings, stores, halls, churches and schools.

The average size home requires a No. 4521-7455 Furnace, so you may safely order that size. Then we will send you our Diagram Sheet on which you may indicate the floor plans of your home. With this before us we will know which size of furnace to send you. If your home can do with a size smaller than you have ordered, we will tell you.

Furnace is substantially constructed. Has easily-cleaned square ash-pit with triangular grates, large combustion chamber. Extra large radiator giving extra heating surface and consequently more heat from same amount of fuel. Radiator is made of all cast-iron for use with soft coal. Armco-iron sides and cast-iron top and bottom for use with hard coal. Radiator is easily accessible for cleaning. The inner casings are well made of sheet iron and lined with asbestos paper and corrugated bright tin, making three thicknesses of insulation, thus protecting the cold air from all radiant heat. It also insures a basement cool enough to use as a store room for vegetables and fruits. The large and substantial floor register insures an even and constant flow of air and prevents over-heating furnace castings.

Photo pictures herewith show the different types of homes heated with this Furnace.

A Table Set for Six

COMMUNITY PLATE

The Aristocrat of the Dining-Table

THE best homes everywhere use Community Plate, now favorably known to every one through extensive advertising in the leading magazines, and recognized as the American standard of good taste in silverware.

It provides a most beautiful silver table service. In the beauty of its designs and high quality of its finish, Community represents the highest standard of excellence.

The beautiful and correct period patterns adopted by Community Plate appeal to women of wealth and social distinction, who were quick to realize the artistic quality and refinement of this celebrated silverplate. It is used on the tables of many of the best-known social leaders of this country and abroad. Such women as:—

Mrs. Oliver Harriman, New York
Mrs. Honore Palmer, Chicago
Duchess of Rutland, London
Mrs. Robert Jordan, Boston
Mrs. Reginald C. Vanderbilt, New York
Mrs. James Viles, New York

Mrs. O. H. P. Belmont, New York
The Duchess of Marlborough, London
Princess Margrethe of Denmark, Copenhagen
Baroness Huard, Paris
Lady Randolph Churchill, London
Mrs. Alexander Morton, New York

FOUR BEAUTIFUL PATTERNS

Grosvenor Pattern

A new design in Community Plate—familiar to readers of recent issues of the leading magazines. Created in the finer mood of those great masters of Period design—the Brothers Adam—it is a fresh, spirited and charming interpretation of the vogue for rich simplicity in tableware.

Adam Pattern

Follows the beautiful designs made famous by Robert Adam and his brother James during the reign of King George III. A delightful inlay effect has been produced by the designers.

Patrician Pattern

Finds its motif in the fine Old English octagonal silver, transmuted here into a perfection of polished planes and beautiful outlines.

Sheraton Pattern

Was inspired by the work of the great English artist whose name it bears. It is a masterpiece of artistic designing—simple yet exquisitely beautiful in outline and ornamentation.

Each pattern typifies a distinctive epoch, harmonizing with the style of decoration then popular. The idea of period silverware was original with the makers of Community Plate and it has met with great favor.

THERE is a particular place and use for each piece of Community Plate. With each piece in its proper place, your table is set according to the best usages of table etiquette. You have a variety of patterns from which to choose. The Adam and Patrician patterns are finished bright; the Sheraton pattern is finished French-Gray; the Grosvenor pattern is bright platinum finish.

Community Plate is not only the most beautiful of silver-plated ware—it possesses wear-proof qualities that make it a favorite everywhere. Each piece is finished with a very heavy silverplate and further protected at the point of greatest wear by an extra plate of pure silver.

A Real Grandfather Solid-Mahogany Chiming Hall Clock \$149

804 No matter how perfectly appointed your home may be, it cannot be considered really complete if it does not possess a chiming Hall Clock. Until you have had such a clock in your home you cannot appreciate the warmth and affection one acquires for it.

One of these wonderful Grandfather Heirloom Clocks (pictured at left) is more than a timekeeper and a beautiful piece of furniture. Around it revolve the movements of the household. Tall, dignified, handsome, sweet to the ear, restful to the eye, this calm recorder of the passing hours soon becomes part and parcel of the family, and as the years pass and the youth of to-day becomes the grandfather of to-morrow, the tender associations woven around the stately, venerable family servant make it the more valued.

This solid-Mahogany Grandfather Clock renders the Westminster Chimes every fifteen minutes on delightfully-toned rod-gongs, the hour being rendered on a chord of four notes, giving a clear, rich, sonorous tone. The chimes and hour-strike of this clock are unusually sweet and musical. As a timepiece this clock is thoroughly dependable.

Case is made of solid Mahogany and of the best cabinet construction. Has a two-coat varnish finish, hand-rubbed to a rich egg-shell gloss. Reliable eight-day movement operated by two chains and brass weights.

Height, 7 ft. 9 in.; width, 20 in.; depth, 12 in. The 12½ x 19-in. dial consists of a beautifully etched plate, the minute circle being 12 in. in diameter. Dial is silver-plated and has gold and black ornamentations. The large clear figures can be easily seen. Pendulum is 39½ in. long.

This Electric Washer With Power Wringer Makes Washing Seem Like Play *Your Home Should Have One*

Does Both the Washing and Wringing for You \$7 Brings It to Your Home—On 30 Days Trial

1837 The picture shows this splendid Cabinet Electric Washer as it will appear in your home. But no picture—no description—can really give you an idea of the wonderful way in which this Washer will remove the usual drudgery of washing the clothes and putting them through a wringer. You must use the Washer in your home—and see for yourself.

Surely, no woman anywhere will continue to bend over a wash-board, and stand for hours turning a large batch of clothes through the wringer, when for so little cash outlay this wonderful Power Washer and Wringer may be secured.

You will pay a washer-woman \$2 or more a day—this Washer costs you less than \$1.75 a week. Then when the small monthly payments are completed, even this expense stops. With this Electric Washer in your home, you can easily do your own washing.

We Challenge All Competition At Our Low Price, \$118

The usual selling price of an Electric Washer of this type and superior construction is \$150 or more. On our famous Factory-to-Family plan, we offer it at the amazing low price of \$118. Send only the small sum of \$7 with order, then pay balance \$7 monthly. You cannot buy a washer at any price that will do your washing quicker or better.

Capacity of Washer is six full-size bed sheets, or twelve shirts, or their equal.

Try 5 Washings in Your Home FREE

If the Washer, after 30 days trial—time enough for 5 washings, does not prove entirely satisfactory, advise us and we will authorize you to return it and will refund every dollar you have paid, including freight and cartage.

With this Electric Washer and Power Wringer, no effort of yours is required to do either the washing or the wringing—the silent electric current furnishes all the power. In a few minutes you will have a tubful of snowy-white clothes. The largest family washing may usually be placed on the line in less than two hours, and when the clothes are hung up—spotless and clean—you will have no tired arms or aching back. How much better to have this Power Washer and Wringer than continue to do the washing by hand! Think of all the clean table and bed linens, the snowy-white garments, the beautiful curtains, the fleecy blankets and immaculate bed-spreads you may have—all without toilsome work.

The Oscillating Cylinder Washes Any Kind of Clothes

To wash a fine georgette crepe waist, you would carefully dip it into soapy water—lifting it up and down until thoroughly cleansed. In just the same manner this Electric Washer washes all your clothes. Any kind of clothes—from greasy overalls to dainty lingerie—may be washed with equal satisfaction.

The clothes are placed in the wood cylinder, which has a combined oscillating and rocker motion. This improved design gives a double action to the water. (See picture of cylinder below). As the hot, soapy suds toss around, over and through the clothes, the soap dissolves the grease, dust and dirt—and the water forces it out.

Made of a fine quality of maple, with galvanized screws, the tub is indestructible. Tub cannot tear or injure the most delicate fabrics. Is easily kept clean.

When ordering, state voltage and cycle of your electric current, also whether direct or alternating.
